#### INDEX

1 FIXES	3
2 ENHANCEMENTS	5
USER MANUALS	15

## 1 Fixes

Reference	Description						
IGN-2154	Remove the option to create new local "Package Type"						
	Under Reference data > Package Type						
	When a user creates a new LOCAL package entry, this normally generates warnings						
	on the import country.						
	Warning message "DeliveredNotReadable envelopes - Not a valid SPSCertificateType:						
	ERROR - cvc-enumeration-valid: Value 'BSF' is not facet-valid with respect to						
	enumeration '[43, 44, 1A, 1B, 1D, 1F, 1G, 1W, 2C, 3A, 3H, 4A, 4B, 4C, 4D, 4F, 4G, 4H,						
	5H,"						
	You can find here below the standard codes defined for ePhyto						
	https://www.ephytoexchange.org/doc/mapping/IPPC_Specific_Package_Codes.pdf						
	To avoid these problems, it is highly recommended for the countries to delete any						
	previously added LOCAL Package entries and use GLOBAL Package entries.						
	If no code exists for the package you always have the free text available.						
	Package Type						
	'ePhyto     Removing the option of       Improving the frank in Fluid and Fluid Head						
	Reference Data Creating a new local Package						
	Condition						
	Country           File Type         Automative						
	Intend of Use     Intend of Use     Code     Description     Language     Scope     Active						
	AM Ampoule, non-protected en GLOBAL Not Active      T +      C     Product Description						
	√ Treatment Type                → AP             Ampoule, protected             en             GLOBAL             Not Active <sup>™</sup> <b>+</b> <i>C</i>						
	→ AT Atomizer en GLOBAL Not Active 1 + 2						
	$\rightarrow BG \qquad Bag \qquad en \qquad GLOBAL \qquad Active \qquad \widehat{11} + \underline{C}$						
	ICT LISED FEEDRACKI Customele Contificate Denouvel for digital signature						
IGN-2635	[GT USER FEEDBACK] Gualemaia Certificate Renewal for digital signature						
IGIN-2044	free text						
	Create new certificate request						
	<ul> <li>In the "Consignment" tab. previously when a user enters a free text for "Declared point"</li> </ul>						
	of entry – Country" this generates the following warning message "The declared point						
	of entry D is neither an ISO 3166-1 country code nor an UN/Locode"						
	To avoid that warning message Declared point of entry – Country ID is restricted not						
	to be as free text.
