IGN-2118	[French] New users language should be French

## 2 Enhancements

Reference	Description
IGN-1820	<p>Create a new flag named "Phyto Destination" under <i>Reference Data &gt; Country</i>.                      If the NPPO Admin disables a given country, the General tab within the Certificate Request will not show it as Importing country or Transit country.</p>  <p>The first screenshot shows the 'Edit Country' form for Andorra (AD). The 'Phyto Destination' checkbox is unchecked, and a callout box points to it with the text: "Andorra – AD is disabled as Phyto Destination".</p>  <p>The second screenshot shows the 'Certificate Request' form. A list of countries is displayed, but Andorra (AD) is missing. A callout box points to the list with the text: "Andorra – AD is not available as Importing country and Transit Country".</p>
IGN-1999 IGN-2091 IGN-2103	<p>Time Zone configured in the GeNS should be reflected in all views (e.g., <i>Received</i> at Import level, <i>Created Date</i> in Withdrawal and Replacement request views)</p>
IGN-2003	<p>[Email with subject ePhyto National System - Certificates awaiting inspection or Système national ePhyto - Certificats en attente d'inspection] The email should report the link of the instance</p>

ePhyto National System - Certificates awaiting inspection

Dear NPPO Inspector,  
2 Certificate Requests have been in "Pending Inspection" status for 2 days and require your action  
Please check the following Certificate Requests:

Certificate Number	Office	Exporter	Importing Country
CR-190502	Turin	c	AS
CR-STG133	Turin	g	AD

Please click the following link for further details  
<https://00.uat-cpd.unicc.org:8443/gensweb/GeNS/>

Please do not reply to this email, this is sent from an unattended mail box. In case you have any queries/responses, please contact your NPPO technical Focal Point.

**System Settings**  
NPPO Settings  
Search: [input]  
Setting Value  
Original Certificate mandatory Enabled  
Pending Inspection Notification Days 2

**Enabled notification in the System Settings**

**The instance link is displayed at the bottom**

[SN USER FEEDBACK] Scheduling inspection:

- In the Company profile add the "Inspection address" field. An optional field. If such address is given, it will be displayed in the first commodity line by default.

**New Company**

Company Name \*  
Branch  
Contact Email\*  
Contact Phone  
Address \*  
Inspection Address  
City  
Postal Code

**Mandatory field. This address is still displayed by default as Exporter address in the Certificate Request**

**Optional field. If the inspection address is specified, this will be visible by default in the first commodity line of the Certificate Request**

- Show a new field named "Place of inspection" in the commodity line. The first commodity line will show the inspection address specified in the Company profile. If the user edits manually the "Place of inspection" in the first commodity line, the same will be displayed in the following new commodity lines.
- The "Pending" list accessed by the NPPO Inspector should show *Number, Importing Country, Status, Exporter, Date of inspection, Place of inspection, Created date, Created by, Modified Date and Modified by*. Please note that "Date of Inspection" should display the Proposed Inspection Date provided by the Company User or NPPO Assistant or alternatively the Inspection Date selected by the NPPO Inspector when conducting the inspection.
- Add the NPPO Inspector name and the Inspection address into the Data Extract.

IGN-2094 "Data Extract" view to be accessed only by the NPPO Admin

IGN-2057

IGN-2099	[Email with subject ePhyto National System - Certificates awaiting inspection or Système national ePhyto - Certificats en attente d'inspection] List only the latest 50 Certificate Request numbers that have been waiting for inspection according to the configured time.
IGN-2101	<p>Assign the new NPPO IMPORT_INSPECTOR role to the NPPO Officers who used to take actions on the imported ePhytos.</p> 
IGN-2104	[LK USER FEEDBACK] Disable the Additional Declarations under <i>Reference Data</i> which language is different from the instance language. E.g., disable Arabic Additional Declarations for English and French instances.
IGN-2107	Provide the "Exporter already exists." message when the NPPO Admin creates a company with an existing exporter's email address.
IGN-2114	In the PDF show Page 1 of 1 in the right bottom corner so the Statement 5 (liability statement) and page number do not overlap.
IGN-2120	<p>Show loader while downloading the Data Extract report</p> 
IGN-2126	Upload the latest user guides. See <a href="#">3.User Manuals</a> for further instructions.
IGN-2129	<p>The NPPO Assistant, Inspector, Officer, and Import Inspector should be able to see the "View all" list under Import Certificates. This new list will show all the PCs that have been imported exception for those PCs that have been archived.</p> 
IGN-2140	Enhance the "Treatment" part. "Confirm Treatment" button to be used to confirm the entire treatment including the chemical active ingredient if any.
